

【Unafraid of tariffs, choose made in Taiwan】

Reliable & stable LCM solution supply

Faced with the uncertainties of US–China trade and high tariffs, businesses are in dire need of a stable and dependable supply chain.

Wayton is specializing in Liquid Crystal Display Module (LCM) manufacturing, design, development, and sales.

We offer Taiwan–manufactured LCM to create competitive solutions tailored for you.

☑ **No tariffs, lower costs.**

100% made in Taiwan, effectively bypassing high tariffs in the US and other regions.

With exports to such as the US, Europe, and Japan, making us more price–competitive.

☑ **Quality for Taiwan, trusted worldwide.**

Clean room automated production and strict quality control guarantee stable and reliable quality.

Long–term partners in consumer, medical, industrial, automotive, etc., have affirmed our value.

☑ **Efficient delivery, stable supply.**

Made in Taiwan, with flexible production schedule and adaptable solutions.

Enable faster time–to–market through customized design support and short lead times.

Contact **Wayton** to ensure stable supply and stay competitive in today’s global trade environment.

Opt made in Taiwan, opt for stability, security, and success.
